\*Additional Fees are fees that are outside the capital commitment, also includes interest paid/received due from subsequent closings of the fund.

# GLOSSARY OF TERMS

- **Commitment Amount** – The amount an investor has committed to invest with the General Partner
- **Paid In Capital** – The amount an investor has contributed for investments and management fees
- **Capital to be Funded** – The remaining amount an investor contractually has left to fund its commitments
- **Additional Fees** – Fees that are outside the capital commitment, also includes interest paid/received due from subsequent closings of the fund
- **Cumulative Distributions** – The amount an investor has received from realized and partially realized investments
- **Valuation** – Sum of the fair market value of all investments plus cash
- **Call Ratio** – Calculated by dividing Amount Funded by Capital Committed
- **DPI Ratio** - Calculated by dividing Amount Distributed by Amount Funded
- **Market Exposure** – Calculated by adding Reported Value plus Unfunded Commitments
- **Total Value** – Calculated by adding Amount Distributed and Reported Value. Represents the total amount an investor should expect to receive from their investments
- **Net Benefit** – Calculated by subtracting Total Value by Capital to be Funded plus Additional Fees
- **Total Value to Paid In Capital Ratio** – Calculated by dividing Total Value by Amount Funded. Represents the multiple of the overall cash invested that an investor is expected to receive
- **IRR** - The calculation of the IRR (Internal Rate of Return) takes into consideration the timing of cash contributions and distributions to and from the partnerships, the length of time the investments have been held and the sum of the Reported Value
- **Index Comparison Method (ICM)** – represents the hypothetical IRR of a private investment program that is computed by assuming the fund flows were invested in and out of a publicly traded index. The resulting hypothetical market value of the program is then used with the program's actual cash flows to compute a hypothetical IRR. This hypothetical IRR can be compared with the actual IRR to determine whether the private investment program outperformed the publicly traded index
- **Valuation ICM** – The valuation equivalent that ICM calculates for the public market is called valuation ICM
- **KS PME** – The Kaplan Schoar Public Markets Equivalent is a ratio of the future value of all distributions divided by the future value of all contributions using the index return as the discount rate. The ending valuation is treated as a distribution in this method
- **IRR ICM** – The IRR equivalent that ICM calculates for the public market is called IRR ICM

# DISCLAIMERS & DISCLOSURES

This report was prepared by NEPC, LLC, an affiliate of Hightower Advisors, LLC, and is intended for informational and discussion purposes only. The information herein involves views and judgment of NEPC's professionals and cannot be guaranteed and is subject to change without notice.

The opinions presented herein represent the good faith views of NEPC as of the date of receipt and are subject to change at any time. Performance information of any indices or strategies represented herein may be based on third-party sources.

The information in this material has been obtained from sources NEPC believes to be reliable.

Past performance is no guarantee of future results. All investments carry some level of risk. Diversification and other asset allocation techniques do not ensure profit or protect against losses.

Returns for pooled funds (e.g., mutual funds and collective investment trusts) are collected from third parties; they are not generally calculated by NEPC. Unless otherwise directed by the client, returns for separate accounts are calculated by NEPC. Returns are reported net of manager fees unless otherwise noted.

A "since inception" return reported, begins with the first full month after funding, although actual inception dates (e.g., the middle of a month) and the timing of cash flows are taken into account in composite return calculations.

Unless otherwise directed by the client, NEPC's data source is the client's custodian bank or recordkeeper. If data cannot be obtained from one of the preferred data sources, data provided by investment managers may be used. Market index data and security characteristics are sourced from additional providers and may be preliminary and subject to change.
